Other Methods of Disposal or Distribution Report

Form 3400-052 (R 10/04)

Instructions for Form 3400-052 Other Methods of Disposal or Distribution Report

This report is for disclosing volumes of sludge/waste which is disposed of or distributed in a way other than land application, and it is also for reporting volumes of exceptional quality municipal sludge which may be either distributed or land applied.

1. Please fill in the identifying information in the upper right section. If you are a septage hauler, fill in your license number and disregard the FID number. If you are a permittee, fill in your permit number and FID number. If you generate municipal sludge, please indicate the volume generated in the calendar year, in gallons, tons, metric tons, or cubic yards. Also if you dispose or distribute municipal sludge as reportable on this form, please indicate the total quantity disposed of or distributed for each method.

Note: This volume must be reported in dry metric tons only. To convert from dry US tons to dry Metric tons:

$$\text{Metric tons} = \text{U.S. tons} \times 0.907$$

2. Indicate the calendar year for which the report addresses sludge/waste use or disposal.
3. Indicate the final use or disposition according to the following options:
 - L = Landfilled
 - I = Incinerate
 - E = Exceptional quality municipal sludge which is either distributed or land applied
 - A = Hauled to another facility for further treatment and/or final disposition
(also use this if you haul to a facility which incinerates or a facility which produces exceptional quality sludge)
 - H = Hauled out-of-state for further treatment and/or ultimate disposition
4. Provide the permit or license number, if this is a permitted or licensed facility.
5. Provide the name of the receiving facility or site owner.
6. Give the outfall number of the sludge/waste being disposed of or distributed. If it is septic tank waste, enter 990; if holding tank waste, enter 995; or if more than 25% grease interceptor waste, enter 997.
7. Provide the total volume distributed or disposed of in this manner.
8. Provide the appropriate units (gallons, tons, metric tons, or cubic yards), corresponding to the volume reported in column 7. Note: Tons and metric tons must be reported as dry weight.

Please include any pertinent comments in the space provided.

Please sign the form, print your name, state your title and indicate the date you sign the form.
